The breed that meets today's standards

On this, the occasion of our third annual Show and Sale, I would like to extend a personal invitation to each of you to be with us on Friday, March 20th. It is our pleasure to present the strongest offering of Shorthorn cattle ever assembled for sale in this area.

We have seen in South Carolina during the past three years a phenomenal growth in popularity of our breed of cattle. Perhaps the knowledge that Shorthorn cattle are genetically dwarf-free played a large part in this interest. Commercial cattlemen using Shorthorn bulls know they will never wake up in the spring to discover a pasture full of non-profit dwarfs. Perhaps the knowledge that Shorthorn cows produce more milk than any of the other beef breeds, with the obvious effects on the calves, has caused this interest. Perhaps the inherent ability of the breed to convert roughage to dollars and to cut down on that winter feed bill contributed to this interest. Whatever the reason, among the dozens that could be listed, cattlemen and farmers in ever increasing numbers are swinging over to the breed that is "Best in every Weigh".

Shorthorns are known throughout the entire country to be Farmers' Cattle — Cattle that any farmer can afford, cattle that can go onto your fields and pastures and make money for you. Whatever your needs may be and regardless of the amount you want to pay, we believe you will find what you desire among these 66 head of cattle. Don't let this prime opportunity pass you by.

This year, we are particularly pleased to have join with us four outstanding breeders from out of state. Bill Jones and Bill Camp from Virginia and C. G. Coble and W. J. Robertson from North Carolina. Their strong consignments will add much to the outstanding animals entered by our own breeders.

We will be looking for you on March 20th.

President,
